

1838 Honolulu Sept 23

Dear Sister W.

There is a vessel going to Hawaii - but perhaps will not go to Hilo have not been able to ascertain her destination. However I will write a line & as I have nothing of importance to communicate it will be no loss if you do not happen to get it

Mr. C. received a letter from bro. W. to day but cannot answer it he is so busy. Wishes me to say he is much obliged & will answer by the next opportunity. Glad to hear that the work of God is still pro-

- guessing at Hills - saw Bro
W's letter to Bro-Castle - am
sorry that there should be
any thing to regret but
there's no perfection here
below - What do you think
of the principle of admitting
members & turning out the
same week? I don't calcu-
late to make them consi-
der it a light thing to take
upon them the vows of the
Lord?

I do not wish to find fault
I want to know how it ap-
pears to you who are there

There is more of the Spe-
it of meeting house building
than there is of the Spirit of

The Lord here -
Pray for us here at H.
we seem to be in a whirl pool
from which none but the
arm of God can ~~save~~ extract
us -

My health is poor & my
spirits also - I seem to be but
a useless cumber of the ground

Dear little Joseph P.
is well; grows ~~on~~ weighing now
between 13 & 14 pounds -

We love him too much -

How do you manage to
go in school? do you take
~~him~~ your babe with you.

My going to school is possible
if my health is better -

I want to go - should but
the mandate has gone forth

At Belmont Massy.
Love to your Mother from
Joseph G.
Take my love to Mr. Cook
