

Kauai Hawaii 1883

Dear Mrs. C.

The things you sent, all came safe to hand. The casks I have taken out. I send you twelve sheets more of journals and letters, to forward to Mr. Anderson. Be so good in your next, as to tell if there is any prospect of getting the package I sent before and this, to commence the season. I shall expect to hear something about the famous dedication of the School, ^{house} in your next letter.

Hope things are going on well with you, but we hear from the natives, that the King is haomana kii. Is it true, and if so, to what extent? I should send you some potatoes, but have just planted all that were ripe. See onwards, you or Mr. C. will please to divide according to the wants of the families.

There is still an interesting attention to religion among our people, though no new conversions that I know of late.

I do not know that I have anything to beg this time, but some letter paper, and all the news you can send me. When coming over from Coahuila, I left

you in such an abrupt style, that I suppose some of the
good folk, think me an strange creature. As it so, to have
no apologies to make. The hour for sailing was set, and I
never mean to keep a vessel waiting for me.

I am sorry the Marquesian mission is to be
delayed till after next time, but delays are
something unavoidable.

I was looking with intense
interest for letters from you, and believe you will
not let a vessel come this way, after they shall
have arrived, without bringing them.

With kind regards to Mr C - and also to
family I am dear
Yours affectionately

The Parker left
us last eve but returned before morn-

der about five miles from Whiner
As near as I can learn every man
on board was asleep not excepting the
one at helm. Her mudder was blown
down and the lower part of it left behind
The natives here have been off almost
all day and at length succeeded in getting
it and I have employ'd a carpenter to
mend it. A new one will be necessa-
ry as this will probably only do to get
her to Oahu. The false keel too is

perhaps injured to have had some of the
Copper was off. It is surprising how
she could get off after having run
under at such a place, as there
were rocks on almost every side. The
wind is now blowing from the south &
I fear we shall have a fall before the
middle is made. How much larger
the poor old creature will live is
uncertain but I feel not a little
compassion for her having devoted us
to such an odd fate. I have ever
pleas'd the carpenter as he is not in much
my terms with the people. Christy we have
none. Her expense will not be much.

A thousand thanks
for your kind letter. A part of the news
you give is truly appalling, but I expect
it. While on the point of leaving ^{Oahu} ~~Calu~~
you advised me in earnest conversation with
one of the chiefs. It was on the underneath
hearings of what has now burst out. May
the Lord give us all grace to prepare for

far distant, when we shall need more
faith than has ever yet been felt at

pounding scriptures and prayer. Ab. Poeline

has been a greater call for books among us

Lukas, Peters, none, but an almost
constant demand for them. I have a
school of ninety, very promising young
men, whose daily improvement give me
much satisfaction. I have lately ex-
amined 2700 Schollars, most of whom
can read with ease in any verse in
any of the books, as was fairly tested.

I am earnestly hop-

from Oahu will be of a more favor-
able nature. But should it be
worse, I hope to be able to say
"it is good for me that I have been
afflicted," as I trust you all can

As to you & mate
we cannot purchase books for books
unless it be the Testament entire

If convenient, be so good as to send
me the following articles. At Luck &

smoothing planes, 6 pair of large lute
hinges, nail-gimblets, broad and narrow
chisels, plane-irons, Center bits, & stocks,
three square files, axe beltes, two pad-
locks, an adze, some lath or shingle
nails. That I believe is all, and
perhaps you will think is more than
you can send. My health is not good
of late, lungs affected, so as to be unable
to speak so much as I write to, hav-
ing taken cold about the time of my
last letter by the Packet. I have
sent the Tannery to work at \$10 per
month, engaged only for the month. I
find his fault. As the shop is built a

my land for the convenience of meat,
cooks for himself, it being too far off
to come to his meals.

I have no news. The people give
good attention to preaching though the
late news from Calicut together with
the influence of one of the enemies
agents, has its effect. It is quite
doubtful whether I get to Gen-
meeting this season, especially if it
is held at Saharna.

With love to

Dear Mr C-

To a letter I have just written to Bart Ladd, and to Mr Ruggles on his return in the Parker, I must refer you for an account of our late attempt to visit you at Oahu. You can only conceive the anguish of soul with which, a week ago last Wednesday, I saw, as I suppose, the thing of Kanai retiring forever from my view, & throwing myself into a boat in the Waverly, Cabin, concluded, I should see no more till the morn of the resurrection! But God was our preserver, and to him be the praise. So him I desire henceforth to feel myself more entirely devoted, and even to live in readiness to die

at the time, and in the manner he shall direct.

A murder it is supposed has been ~~perpetrated~~ perpetrated in this neighbourhood within a few days past, and as I am about to visit the spot in order to find out the truth or fallacy of the reports, it will prevent my writing any more till the Brig sails.

The Farmer is much in want of the carving knife which he says the Coldcham uses to make an oil stove too, he says is indispensable. The beaming knife he hangs down is about 8 inches to the start, and not quite stout enough. The sword like another.

I send forty seven skins for the binding they are
small but we are obliged to select skins for
large ones are too thick and we have no knife to
make them thinner. The whole cost is thirty two
cents per skin of which eighteen is cash and the
remainder in books. The Tanner has agreed to tan
one hundred per month and bound himself for \$18.00

you will of course perceive that a curving knife
will be profitable as we can then take the
large skins. There are about 200 skins in the

I must write a line, though
under circumstances rather unfavorable. Bartle has left
unexpectedly for the opposite side of the plain, &
my letter must go soon if it goes at all, to
him. I have been ^{to have been} ~~rather~~ ill with a disor-
der of the head. I feel myself this morn^{ing} find no relief
is given. This must be my excuse, for not answering
the kind letters of Bartle, Bingham & Kelle, and

the fact for your sake, in your affliction & distress
and earnestly pray that ~~that~~ the scourge which is now
laid so heavily on this guilty nation, may bring us
all to flee where our strength lies, and we to
the glory of God and the confession of his mercies. Expect
a small falling off in our sabbath numbers, I do
not see any difference in our people. I do not know

having ^{but that} a great majority would soon fall into the ranks
of the enemy, should they be placed in the same circumstances
with you, and how soon that may be, we are not told.

Is the time is not distant, and should not be sum-

My Dear Mr. C.

We have waited a long time for an arrival, and have been much vexed by the packet you sent. Things go on as usual at Kawai. My health is not the best but comfortably, and much interested in my school. I never was pleased with school teaching till of late, we have a fine house going up, and shall mount the twenty dollars appropriated by you school - as soon as you can send it, in bath-nails, window glass ~~cut~~ boxes 7 by 9. Some ^{long} hinges and a few board nails

For my own chamber, I should like some bath, and if you can spare ~~it~~ ^{them} without an inconvenience to others who need ~~it~~ ^{them} more, a few boards, say ⁵⁻⁰⁰ ~~three~~ feet or lot of nails, clapboard nails and all the sizes large up to spikes, common board nails mostly, a plastering trowel.

My Stephen E. Smith, says, he would lend me a copy of his recollections in Armenia. Do you know whether the book has come. I wish you would send me the Spirit of Pilgrims Oct. for ^{last} April, and as many more as you can spare.

I have dismissed the Tanner. He has tanned 434 skins at 18 dollars per hundred \$88-96 - of this, I have paid him \$83-10 Cash, the remainder in laundry.

I have now a native man tanning who I think will succeed and do well. He has been at work with Baal since he has been here.

Be so good as to say to Mr Rogers that there are 19 more Testaments due me, which I hope he will send soon. Of the books that are not appropriated, are there none on hand? I send dispatch of hundreds daily, but have None.

Mr Dennison goes up with Baal. He has left me a good map of Kanai and another of Obitan. He has boarded with us all the time except in his towns, and then his food was mostly prepared by Mr and Mrs Lewis; has behaved himself much to our satisfaction, and is an interesting man.

The letter and mats to Mr Britton; you will please to forward and the other letters - letters to Mr Alexander.

Have you no Boston Records, and other papers to send me? Large things were mentioned about them and for the door of the school house, perhaps there may even left of the bar which I brought from Labanina sufficient. The size which I send is for Mr Shaulding; be so good as to forward it to him. Samuel goes up to purchase a bell if he can get it, with articles which the people here can give. He will probably consult you about the price.

The two calabasses are for Mr Alexander, the one
filled with oranges, ^{in part} is to be emptied at Oahu,
and its contents divided among the sailors of your
station, perhaps you will have something to fill it
before you send it to Oahu, they are sent by
request of Mr A.

By Malimua this I send a box
to be forwarded to America with the request that
you provide for it a good passage and mark on
one side of it ~~To Commodore~~ ~~from the same~~ to
Hercy Ely Esq Rochester New York on the other
side To the care of Mr J. M. Tracy N. York, Nassau
St No 14. She likewise requests that you send by
the same ship a letter, in this packet, directed to Mr
Ely and write on the corner of the letter the name of
the Capt. Ship, &c. In the Packet you will find a
letter to Mr Loomis as I know not the place of
his residence I must request you to put that
on and forward it with the other American letters

The sickness of Malimua's father was not of a serious
character and did not need his presence. I have given
him and the Clark's man some palatoes to pay their
passage not merely because I did not wish to
hear the grumbling of the Kahu-maka but to leave

the men that we have no vessels to transport them
about for every trip. I should be glad to send the
Sally full of chalapas, the tanned skins of which I have
found on fire hundred on hand and some Irish potato
tubs for the use of the families but it has been so
long since a vessel belonging to the Chief has been
here that there is an unusual scrambling and the Ram
Chaker is cross neutral so that to get the box for
the butter tub and a few oranges on board is as much
I can do at present.

If you have it on hand to spare I wish you
would send me a keg of white lead and a paint
brush by the next opportunity. So now send the beams
if they are needed for the comfort of the new boat
men. You will remember you promise to bring the
horns of a horn thick enough for a cloth horn
and I should like one or two more of the same stamp.

Will you tell me value of the glass and the lathe
nails you sent by the Pacific as there are for the school

have no wish to know that I may not ever receive
twenty dollars.

The maps of Kanai & Aldran will
be sent you as soon as Mr W. can take a copy
for our use Mr S - said to me that he should
consider the copyright as his own and was unwilling
that we should send a copy to St - to print. Said he
was afraid of that and did not give a correct copy to
you of Baker's & remonstrated and he afterwards said that
it was nearly correct I had to shalabala with ~~the~~
till he got vexed and gave me a correct copy. He
told me that in the bargain it was not stated what sort
of a map he should give. From this you will see that
he was troubled lest we should get them printed before
he sold the copyright.

Be so good as to say to Mr. Rogers, that I

told me there was a new edition about ready.

There is a man here who has been tanning
goat skins expecting to sell them to G. & C.

of the raw skins for them, he applied to me
to buy them. I told him I would write to you
and enquire what number of skins the book

could offer to give if you wanted any of his.

I cannot tell the exact number I have
hand but I believe it is nearly 1000.

The native I have at work tan his
skins better than Wall did, and as he
is induced to leave me, will probably last at
the rate of four or five hundred a year. I
have made no bargain with him. When I talk

Dear Bro C.

Before this reaches you, you will have heard that our hearts are bleeding apart, in consequence of the separation from beloved children. Our dear Emily left on Friday last, in company with Mr & Mrs Ruggles, who have engaged to be her guardians, and provide a home either in their own family or in some other, in whom they can confide. There is doubtless some risk; but a thousand times less we believe, than in keeping the child in this land of palliation. If we are faithful to the cause of Christ among the heathen, I do believe the churches at home, will never see our children suffer for the want of a home & a god over too. I for one, am willing to try them.

Our people do so nobly in providing for the ship, and Capt. S. went off apparently not a little gratified with his recruit. 30 lbs of jam, 80 lbs of potatoes

C. Co. Huts Do. 36 Hogs. 40 Goats. 2 bullocks,
50 Turkeys, and Family innumerable, a great
many pieces of mats, tapa, &c. &c. These
chords of wood. The wood was the avails of books.

The bullocks & goats, from our herds. The Huts & pa-
tates, were likewise the avails of books.

We have just finished the best examination of
schools, that we have ever had on Kauai, since
the first of Sept. last, there has been an increase
of 391 readers, we have now in all 3,389
readers, most of whom read the verse, which
was selected by the examiners, with a fluency
that would not have disgraced a New England
school. I cannot express the pleasure, satisfac-
tion, and gratitude, I feel, that so many of the
people ~~are able~~ ^{can} to read that word, which is
able to make their mind unto salvation.

May God in his infinite mercy grant his blessing
to accompany the reading, and preaching of his word.

I am not able to say any more about the bal-
last of the Packet, than what I wrote ~~in a letter~~ to
the Pringham the day I received your letter, except that I
remember Kilauea's mind to tell some or all of it, to
the Jones, about the time we were preparing for our visit
to the South Seas. I cannot say that he told any of the
part of our journey, &c.
