

[1844-1846?]

*Mr. A. Wiley*

Pro. Wiley,

When one of your notes came I was absent at Koolau, and the second I waited for the native to come and he did not come; and now I will say a few words, and but a few, as you have so many American letters to read, and surely thy one or variety that mine will hardly get a chance.

Breth is engaged in the village and hardly gets time to see us once a week; and of course it is out of the question to have him to go to U.

I have two kinds of the Hibiscus come up one with a round rough leaf, and one with a smooth serrated or netted leaf, but I do not think either will do very well. The wind seems to hurt them very much.

Tuesday - Mrs. beam of this has called so I must close by wishing you good morning.
