

1850?

Punahou Sept. 24th.
[1850]

My dear Mrs. Wilcox

I have been long indebted

to you for a kind note - I did wish I intend
to write long ago - but I have occasionally something
to do. besides holding a pen -

Your sons seem to do very well here.
Appear happy & contented. Charles said
a few days since that "Punahou was not as
good a place - as he expected" - In the reports
that I hear they do very well & they sometimes
spent a ^{very pleasant} social evening in our room.
How do you get along without them? Did
you know that he let our eldest accompany
Mr. Smith to Waimanalo, Honolulu & learned
something of a parents separation from
young children during his absence.

But you have another son to comfort you
in their absence. Hope you are as happy as
"Leah" in your boys - & that you may be truly
blessed in them. ---

The great Punahou
forming is well - & it is a great privilege
thus to report ourselves after the sickness of last
year - Mr. Rice has not fully recovered his health
but is able - to be doing something at "those heavy
dials, building fence making, etc -"

We hear to day that Mrs. Bailey of Wailuku
is very sick of dysentery; no further particulars

you are the one that did not get come to know the part of my former therapy

Mr Wilson is young - Is it so? & do you stay at Kowale during his absence - Kowale seems to be destined to become settled - The Marshalls are considered very pleasant home heard Mrs M. called a pattern of disinterestedness & benevolence - Mr. Com has been quite sick. He was out on his tour & was laid up for a week Mrs Bond made us a short visit a week or two since reports all as usual at Kowale

Mrs Whitney still at Kowale from
 Mrs Payne makes her to stay until
 Conway but very sleep & then
 must let you stay & then Mr. D. & C.
