

Thursday Aug. 3rd 1837. Mr. Brinsmade wrote me a note this morning requesting me to meet him at the house of Kinau to interpret for him some thoughts which he wished to lay before the king and chiefs. I complied with his request; but he was not able to meet the King. Kinau, Auhea, Liliha & Paki were present. He proposed that the Chiefs should institute a School for the instruction of the King & Chiefs in the science of Political economy and law. They thought well of the proposition; and Mr. Andrews was proposed as a teacher. They seemed also disposed to give him a written invitation to become their teacher. Many remarks were made to them on the subject of their being enlightened on points of civil policy, and the laws of nations - that they might know how to meet public officers and how to advocate their own cause & maintain their own rights. What was said to them was received with much apparent satisfaction; but that effect it will have is not certain.

Friday 18th. By request of Mr. Andrews the brethren of the station met this evening at my house to converse on the subject of an application of the Chiefs to him to become their teacher, to be supported by them. They are desirous to have regular instruction imparted to them on political economy & jurisprudence and on all subjects connected with government. We listened to Mr. Andrews representation of the case and his willingness to assume the responsibility of the work and on motion of Mr. Bliss seconded by Mr. Bingham we voted that we advise Mr. Andrews to comply with the request of the chiefs to become

their teacher.

I cannot be sure as to the precise form of the vote whether it was the above or "That we approve of Mr. Andrew's accepting the proposal of the chiefs to become their teacher.

They are to furnish him a home and to give him a salary of Six hundred dollars beside, and allow him a piece of land to pasture a cow and for cultivation.

I urged the importance of instructing the children; and at the close of the meeting the teacher Keikinui gave orders that the children assemble every day in the week except Saturday to receive instruction.

In the afternoon I requested those who had formerly been members of the Poaha meeting to meet; about 30 assembled and I addressed them on the subject of persevering in the good way as no man having put his hand to the plough & looking back is fit for the Kingdom of God.

Several of the Mission family called on Cap. Bruce on board the Imogene. Viz. Dr. Judd. Mr. Smith, Dimond, Hall, Cooke, Castle & myself. We spent about a hour on board. Found the captain very accessible and pleasant. He informed us that several Catholics have embarked for this place on board the Europa. One of them a Bishop who is a Spaniard - does not talk Eng. Cap. Bruce was very free to express his opinion that it would be exceedingly unhappy to have Catholics established here; and when he was applied to by the Bishop on the Coast to use his influence here in his favor he declined and advised him not to come. He also said the Chiefs had a perfect right to forbid them to land. We regard the Captain as a very

candid man and well disposed in favor of good order if not decidedly so in favor of religion. He treated us with politeness and on our inviting him to call upon us he assured us he would do so.

Wednesday Octr. 4 1837. Cap. Bruce called in company with Mr. Brinsmade upon the families of the mission. Looked at the Bindery and printing office and visited the school of children under the care of Mr. & Mrs. Cooke - and made a few remarks to them which were interpreted by Dr. Judd.

I arose and found it to be Mr. Andrews, who had just come ashore from the Kai which had arrived with the King from Lahaina. The King has come down in order to have communication with the Captain of the British Man of war on the subject of his relations with the British Consul and of the Catholics &c.

Wednesday Octr. 25th 1837. Walked to Koolau in company with Mr. Castle to the station of Mr. Parker. Our object was to examine the walls of the new house which he is now building laid up by Antone & company. They are not laid in a workman like manner & he should not be paid full price for the job. Returned the same day walked all the way. We were 3-3/4 going over & 4 hours returning. Mrs. Hall went to Ewa.

Monday Octr. 30th. The Brig Peru which sailed for Lahaina in company with the King's fleet returned and anchored in the roads. Towards [?] she was got underway & proceeded on her voyage. He was formerly much employed as an interpreter to in the transaction of business between the foreigners & chiefs. He has left quite a family of children.

Several captains took tea in company with Mr. Brinsmade and remained to our weekly lecture. Their names are as follows. Lawrence, Chase, Pease & Barney.

Thursday Novr. 2nd 1837. The ship Europa which has been expected for a considerable time arrived. She was boarded by the Pilot and not brought to anchor as she had passengers. This was in compliance with the directions of Kinau. The Captain and owner came on shore & in company with the Eng. Consul called upon the chiefs. The act of prohibition to anchor was declared to be a violation of Treaty. Kekuanaoa went off on board the Europa standing off and on and made inquiry respecting the passengers.

Three are said to be Peruvian officers & Two are Catholics. The ship came to anchor soon after Kekuanaoa left, as the Chiefs had no disposition to keep the vessel off. They thought it necessary to use precaution because of the information imparted by Cap. Bruce of the Imogene. The Catholic Bishop and others which embarked from Valparaiso obtained a vessel at the Soc. Islands and have proceeded to Asscension.

The Chiefs have given permission to land, the Chiefs requiring a more particular account of their objects & professions than they had given.

One of them as a man by the name of Murphy who is a known Catholic and has been at the islands before.

There was a good deal of excitement in town on account of the steps taken by the Chiefs. Dr. Judd was employed to translate the correspondence which passed between the passengers & the Government.

Friday Novr. 3 1837. The Europa came into the harbor this morning. It is well that no prohibition was laid upon the vessel and that she got into the harbor, as the wind is now blowing on shore.

Just before evening Mr. & Mrs. Emerson with two of their children arrived here by the way of Kaneohe. They are making a tour of the island.

Monday 6th. Messrs. Castle & Cooke returned from another part of the island. From Kaneohe to went to Waialua in one day and left the latter place this morn via Ewa. Their wives are at Kaneohe.

Tuesday 7th. Mr. Castle walked to Kaneohe and will return with his wife.

Thursday [Wednesday] 8th. A singular phenomenon of the tide was witnessed last evening: the sea returned much farther than usual & vessels near the shore grounded - the sea returned again and rose to high water mark, all this in the space of about half an hour. The rising & falling was repeated many times and continued thro. the night - diminishing in the degree of the fluctuation till the equilibrium was restored. It has been occasioned doubtless by an earthquake or volcanic action.

Tuesday Novr. 21st. By letters this day recd. for Hilo we learn that the phenomenon of the tide witnessed here on the evening of the 7th was experience at Hilo with desolating effect. Mr. Lyman in a short poscript states that on the evening of the 7 at about half past 6 o'ck the sea was noticed by a few persons to return several rods from the shore, it returned shortly and the first surf swept every thing before it which was not more that 8 or 10 feet above the highest water mark. on the 8 - the bodies of eleven persons were found and enterred on the 9th. Mr. Coan gives a more particular account of the catastrophe - and he states the height of the surge to be 15 feet and upwards. The brethren had just commenced a protracted meeting at the time this event took place. The meeting was an interesting one and many they hope have

experienced a change of heart.

Miss Smith came over to day from Kaneohe accompanied by Dr. Judd who had made a visit to Mr. Parker's to attend to the arm of his little child.

Thursday Novr. 23d. To day the Schr. Honolulu, formerly Missionary Packet which has been purchased by Mr. Dudoit sailed from this port for Ascension and carries Mr. Bachelot & Magriet, French Catholics. The Lord grant that every attempt of the Man of Sin to establish his domination over the consciences of men may be defeated.

Saturday Novr. 25th 1837. The Griffon arrived this morning from St .Blas. She bring news from the U.S. as late as the 5th of August. Great failures had also happened in England.

We get the intelligence also of the death of King William 4th, and the accession of Queen Victoria to the Throne.

Sabbath 26th. The ship which carries Mr. Dibble & Mr. Burnham to America passed along this morning. Cap. Forsdick & Mr. Burnham came on shore. We met with Mr. B. at the chapel after the close of divine service, and learned that Mr. D. would not come on shore and that the cap. would go off again in the course of the day. Being desirous to secure, if possible, a passage for Mr. Gulick's son Halsey, I went in pursuit of the Cap. & found him. I proposed the subject of a passage for the lad & of the vessel's stopping at Kauai to take him in. The Cap. said he could not possibly do it, as he had taken in all his recruits, and should not be justified in turning out of his way to take in a passenger.

Tuesday Decr. 19th. This day Bark Jones, Cap. Merrill, sailed for New York. We shipped by her about 1 1/2 tons of freight, which by the kindness of Cap. Dominis was card. ft. free.

Mr. Smith moved to his new dwelling at the N.W. part of the village. His School house was opened for the first time by a religious service performed by Mr. Bingham.

One thousand or more persons were present.

Monday January 8th 1838. A protracted meeting which commenced on Sabbath Decr. 31st 1837 or more properly on Monday Jany. 1st 1838, came to a close yesterday. the number of days of continuous meetings was eight. The meeting house was filled, and many sat without by the doors and windows. I think the present meeting has been attended by greater numbers than any previous meeting of the kind. Mr. Bingham is very confident that the Spirit God has been present and that a goodly number have been converted.

Messrs. Bishop & Emerson were present during nearly the whole time. Mr. Parker came over but remained only one day. Mr. Smith also labored; but Mr. Bingham seemed to lay him self out in labors.

Monday Jany. 29th. This day a protracted meeting commences at Waialua - Mr. Smith left last week to attend the same.

Wednesday Jan. 31st. Kekuanaoa has entered with spirit into the business of laying out the village of Honolulu into squares. He has appointed lunas who have been laying out streets. Some of the foreigners oppose the work others approve of it.

Since the protracted meeting the lecture of this day has been attended in the evening. The number who attended this evening was large. Not less than 2000.

Thursday Feby 1st 1838. An invitation was given on Sabbath and also last evening to those who entertain the hope that they are renewed in their heart, to assemble this afternoon in connection with the Church in the meeting house. Accordingly there was an assembling of such persons from all the places which come into the division belonging to this station, from Moanalua to Koko. Mr. Bingham estimated the number present at 1272. These all profess to be born again and to have a hope in the mercy of Christ.

Took tea this evening in company with Mr. & Mrs. Castle at the house of Mr. Johnstone.

Tuesday Feby 6th. Mr. Smith returned from Waialua, reports that the protracted meeting has been

attended with good results.

Thursday Feby 8th. In consequence of an application from Mr. Wilcox for a vessel to bring himself and wife to this station or Lahaina in order that they may avail themselves of the services of a physician in April I have despatched the schooner Keola which Mr. Ladd has obtained on my account. Sixty dollars is the sum for charter, and I have the privilege of freight which will cause an abatement.

The news from Hilo is very encouraging in regard to the work of the Lord. Mr. Coan had made a tour into Puna to hold protracted meetings there, and his labors have been attend with great success.

Monday Feby. 19th 1838. The Schr. Keola arrived from Hilo this morning with Mr. & Mrs. Wilcox. The winds were unusually favorable and the schr. arrived at Hilo in less than 7 days passage for this place. She left on Friday evening to return.

They have taken up their quarters with us and occupy the adobe house in our yard.

The Chiefs have been engaged for two or three weeks past in contriving and effecting alterations in the streets of Honolulu. Their measures are opposed by the English residents and favored by American. The widening or straightening of the streets will be of essential & permanent advantage and every one who desires the prosperity of the place will be willing to make some sacrifice of property to bring about the changes contemplated.

Thursday Feby 22nd. The ship Factor, Cap. Pearce arrived from Coquimbo. She sailed from Boston in August and has brought us letters from our patrons & friends. A printed circular from the Secretaries of the Board and a letter from Mr. Anderson to the mission of 8 sheets has come to hand. In consequence of the exceeding great pressure of the times the Bd. have found it necessary to abate from the sum specified in their last communications \$5600 making our grant \$30,000.

A letter has come to hand from Mr. Richards dated Wheeling Va. Augt. 1 1837. He expects to embark for these islands in Novr.

We have heard from W. F. and J.E. They are at Chester N.H. in the family School of N.F. Emerson brother to Mr. E. of this mission. Evarts had been very ill; but was pretty much recovered.

The Unitarian minister who was expected to come to this place has not come for want of funds, we hear.

We have a small amount of frt. by the Factor mostly boxes from private sources for individuals.

We have recd. Heralds from Mar. to Augt. inclusive and a pretty good supply of publications and some books. Other supplies none and Mr. Hill says we shall probably receive very few for a long time to come.

The debt of the Board continued to be \$40,000.

Monday March 5th 1838. The Ship Factor Cap. Pearce sailed this afternoon for Canton. She was detained in port several days by reason of the wind from the sea, in consequence of which we were enabled to multiply our letters. I sent all the letters & communications on hand for America & the East, the opportunity being favorable, as the Cap. of the Factor expects to arrive in the U.S. next August.

Tuesday 6th. At quarter before one P.M. of this day set out for Ewa, intending to proceed to Waialua & return via Kaneohe.

Tuesday 13th. At 1/4 before 12 o'ck this morning I arrived from Kaneohe in company with Mr. Wilcox.

After leaving here for Ewa a week ago on foot having been preceded by Mr. Wilcox on horse back a few hours, I reached Mr. Bishop's in 4 hours and found Mr. W. there.

The people are in an interesting state at that station, Mr. & Mrs. Bishop are much engaged. Mr. B. meets with the people morning and evening for worship in the meeting house and devotes most of his time to conversation and private instruction. We attended worship in the evening. When we entered the meeting house the assembly were engaged in prayer lead by one of the Ch. members, who seemed to pray with a good deal of fervor. At the close of the prayer Mr. B. commenced the services by giving out a hymn. The exercises were conducted after the manner of an ordinary lecture. His subject of discourse was Elijah's enquiry to the children of Israel; How long halt ye between two opinions? &c. He went through with the history of the transaction in connection with which the enquiry was addressed; and made an application of the sentiment in the text.

At about 20 min. before 7 o'ck A.M. of the following morning, after having breakfasted and united with the family in morning worship I set out on foot for Waialua, leaving Mr. Wilcox to follow on horse back as soon as a horse for him should be got ready. I was overtaken by Mr. Wilcox about 2/3 of the way to Waialua. We proceeded on together, he walking part of the remaining distance while I rode, thus riding and walking alternately, tho. not precisely equal distances, preferring myself to walk. We arrived at Waialua about 2 o'ck and found all well.

Here we remained until Saturday morning, having changed our mind in respect to getting back to Honolulu on Saturday evening, Mr. Emerson being desirous that we should spend the Sabbath at Laie, where a protracted had been appointed to commence on Monday evening or Tuesday Mornng. We set out on foot for Laie a little before 7 o'ck A.M. to be followed by Kuokoa, one of Mr. E's most efficient Ch. members. At Waimea we held a meeting with about 50 persons to whom notice had been carried of our

coming and intention to hold a meeting at that place. Some of the people were attentive to what was addressed to them, a few were quite light in their behavior. We stopped somewhat more than an hour, and proceeded on for Waihee where a meeting had been appointed. We arrived at that place a little before 12 o'ck. 150 or 160 people had assembled in the house of Naloloa the head man, whom I addressed. I saw no levity among the people and by some a good degree of attention & interest was manifested.

At this place we dined. The head man had spread a table in a neat house adjoining the one in which we had conducted our worship. A turkey well cooked with baked kalo and potatoes was brot. forwd. in china dishes. We were furnished with spoons for the soup & with knives & forks for the meat & vegetables. Two tin quart pots not in silvery brightness served us as tumblers to drink out of. For a native the style of the table and of the provisions was superior; but it would not bear a comparison with our tables.

After our repast, having prolonged our stay till about 2 o'ck, we set out for Laie, where we arrived not far from sun set. We were conducted to a decent house which had probably been vacated by the head man to afford accommodations for us.

We saw at this place the scite of a house which had been consumed by fire communicated by lightning with which it was struck a few weeks ago. No human lives were lost. The people told us that some hogs were burnt, and a canoe consumed. A good deal of excitement was produced at the time. The providence I trust will be made use of for good to the people.

A little after sun rise on Sabbath morning I attended a prayer meeting convened in the meeting house. The number present might be 150 or 200.

At 9 o'ck the shell was blown again for calling the people together - they had come in from other quarters and the cong. amounted to 600 or 800. I addressed them as well as I was able, not pretending to officiate as a clergyman.

At 1 o'ck a Sab. Sch. was attended. Mr. Wilcox was present. I did not attend, having a head ache.

At 3 o'ck the shell was again sounded & at half past 3 o'ck we went to the meeting house. The cong. was not quite so large as it was in the mornng - some probably residing at a distance having returned: but notwithstanding the number was pretty large.

I addressed them on the subject of the Savior's advent and of Salvation thro. him. Kuokoa followed me with remarks, which were pertinent and exhibited a good judgment & a good spirit - The subject of remark in the morning was the pouring out of the Holy Spirit on the day of Pentecost.

The forenoon subject was the destruction of the old world & of the cities of Sodom & Gomorrah - the

wicked punished the righteous preserved.

In the eveing quite a number came to our house to talk on the subject of religion. Two persons who had been very great offenders came and confessed their deeds. They appear to have been stirred up within a few months past. I trust the Lord is preparing the minds of the people there for the display of his saving grace.

The head man Peka proposed to furnish us with a whale boat and rowers to convey us to Kaneohe. After attending prayers at the house where we slept, we set out on foot for Hauula accompanied by the teacher of that place. It was considered expedient that we should walk to that place while the boat was got ready, and on acct. of the surff some part of the way which would make our passage more uncomfortable by water than by land.

At Hauula we took our breakfast consisting of a fowl & baked talo provided by the people and bread & butter brought with us kindly provided by Mr. Emerson.

After breakfast we walked a little distance along the shore to the place where the boat had been drawn up to wait for us. It was launched and we set forward. There were 4 rowers a steers man and a boy to bail. Three of the persons were natives of the Soc. Islds.

From Hauula we kept along the shore, a part of the way very near: our course throughout was inside the surff and the first part of the way in shoal water. a short distance the water was so shoal that the natives were obliged to get out to lighten the boat and pull it guide it forward by hand. Passing Kahana the swell was considerably high and on one side of the bay we passed so near the breakers as to be incommoded by them. Near Kualoa our course lay through breakers or in such a direction as seemed to be through them. We got along without accident though the swell was high and the surff broke in various directions - sometimes just before us sometimes behind and on either side.

A heavy swell set into the bay off the eastern point of Kualoa in the direction of Mokopuu. Here we had a smart shower of rain. It was soon over however - Near Kualoa a canoe passed us having as we suppose Mr. Tinker on board bound to Laie to attend the protracted meeting, having spent the Sabbath at Kaneohe. We proceeded on our way and about 2 o'ck we landed near Kaneohe and left the boat to return to Laie. We walked on about half a mile to Mr. Parkers and we found the family moved into their new house. Mrs. P. very kindly provided us with refreshment. We spent the night with them and about 8 o'ck started for Honolulu. The wind was quite strong at the pali and we were overtaken with several smart showers of rain but as we were provided with umbrellas we did not get wet. We arrived at home about 1/4 before 12 o'ck and found all well. I having been absent just about one week.

The Lord be praised for his protecting care over us who journeyed and those who remained at home.

Thursday March 22 1838. This evening a three days meeting has closed at Waikiki - from 1200 to 1500 people have attended - assembled from Maonalua and all the intermediate lands including Waikiki - Manoa, Makiki & paawa - and some people from Honolulu. I was glad to find them comfortable, the health of Mrs. Richards as good as when she left. We talked some time respecting the state of things at the islands and of such incidents as would most naturally first engage the thoughts. The wind was strong and we waited some time for a double canoe to come off and assist us in getting in but as it did not arrive we set off for the shore without aid. We were a good while in rowing in and got some wet by the spray. We were met by Mr. Bingham and Dr. Judd and others at the Hale Kauila. Mr. Diell came almost immediately with his wagon and received Mrs. Richards into it and rode to the mission house.

As soon as the letter bag was opened we began immediately to feast ourselves with its contents. The letters for the different individuals had been carefully assorted and put up in bundles and each obtained without delay his parcel.

The Suffolk left Boston on the 7th of Novr. 1837 and was the only vessel expected to sail during the fall.

We recd. many domestic letters from Kauai, Maui & Hawaii by vessels which arrived Saturday and yesterday obtained the unpleasant news that Mr. Conde had been burned out. He stood out some time before he would come to meeting and when he came he said he had a thought for Mr. Bishop. His thought was that he and his wife wanted to be baptised, and would turn now if this rite might be administered to him; that if it were not he would not turn. He was told it could not be done unless he had repented of his sins - that baptism could do him no good - that it was a sign only and could avail nothing unless the Soul had been previously baptised with the Holy Ghost. He did not appear to be satisfied at first; but afterward seemed to be humbled. He has had some Catholic instruction and had got the notion that baptism is a saving ordinance.
