Greetings:

Your letter was shown to the Privy Council and they decided that we two should search for a place to be leased, where the cattle of the missionaries should be located.

We know of a suitable place for cattle at Kewalo, 150 feet to the seaward of the road and thence to the sea, but the location of the proposed fence among the bullrushes is not clear. We think you should surround the place with a ^{good} fence and then it should be surveyed and a lease drawn up.

With gratitude,
Heoni Ana
