

for better from here
I had no night the day
in the best of health
I am prepared to see the
most perfect form in nature
this whole matter is simple
the whole of the day
the whole of the day
the whole of the day
the whole of the day
the whole of the day

Mrs Wilcox
Honolulu

Holaa April 4th 1838

Dear Sister Wilcox It is but a few days since I wrote you but as I shall probably be able to send the mat which I obtained for you, ^{I write again} I hope you will like it. It is the best that I could get. Sister Whitney is going up she will probably go before you leave. I want to hear from you, write me all the particulars as soon as you are able. I cannot write you a long note now for want of time the families on this Island in general health. I regret not having the pleasure of seeing you & the other dear sisters as I had anticipated but all for the best. We have just closed our

one term it is vacation
now I hope next Term to
resume my labours again as
baby seems to be ~~growing~~
growing more healthy. long
to be at work but so
my shame be it said am
yet henna henna in the
language. But siste W
as our pen is to be our
only medium of communication
do not let that be idle.
Still hear every intelligence
blessed news from your station.
think it would do our
souls good if we could
hear the reports of the
brethren this year.

O what a reward have
the labourers in field been
blessed with & truly the
Lord will bless all his
faithfull servants shall
never again give away the
spirit & shut out the

from heathen from heaver
O that we might lie low
in the dust of humiliation
& be prepared to see the
manifest power ^{of God} in turning
this whole nation to himself.

Dear Sister I long to see you
but know not when I may
enjoy that privilege.

Good bye with love.

Louis S Johnson
